Subject: ENVI under windows?
Posted by harmer on Fri, 01 Jul 1994 10:22:09 GMT

I have just ftp'd down the compressed files for ENVI from IDL's
University of Colorado ftp site. It seems pretty clear from the
text files that came with, that this is not ENVI for a windows
environment (I admit, I tried to get it to run under windows and
it didn't work). Does anyone know how I can get hold of ENVI for
windows, via ftp (or otherwise).

Mark
