... that you should bring you rown food and a sleeping bag ;-) [just
kidding]. Th eexact salary depends on several factors such as age,
marital status, children, years in the public service (or equivalent)
sectors, ... A rough estimate yields about
$45,000 per year net, which will leave you with on the order of
$25,000-$30,000 after taxes, social security, etc.

Cheers,

Martin
