does anyone know what a truncated save file is? I've just spent a couple of weeks doing a Monte Carlo simulation, I'd hate to lose the data...

% RESTORE: Portable (XDR) SAVE/RESTORE file.

% RESTORE: Save file written by src@zudata1.star.ucl.ac.uk, Wed Mar 28 13:15:13 2001.

% RESTORE: IDL version 5.3 (linux, x86).

% RESTORE: Truncated save file, restored as much as possible:
/stuart/src/monty/zudata1_4472_mc.sav.

cheers,
