Subject: Re: process comunication Posted by Rick Towler on Fri, 25 May 2001 18:19:43 GMT View Forum Message <> Reply to Message

i am not sure exactly what you want to do but the only network functionality I am aware of in IDL is the SOCKET procedure found in idl 5.4 (I don't think it is in earlier releases). Whatever you are trying to do would have to be done using that or by using some external library.
