Hi there,

I haven't tried this, but I am pretty sure of how to fix your problem.

Use a seperate base for each of these, and make sure the base common to
both of these does not specify either /row or /column.

think it should then be possible.

 let me know if this doesn't work though.

  (sun sun and more sun... and heat and heat despite all
  my prayers for snow!!!
  Just doesn't seem to be working yet... Bummer!)
