Whats wrong with XYOUTS?

heres mine:

PRO draw_colorbar

@control_com

@windraw_com

```
sh = (wdp.ysize + wdv.ysize) / cc_data_nlevels
for j=0, cc_data_nlevels-1 do begin
  color = cc_contour_colors(j)
  tv, replicate(color, 40, sh), 0, sh*j
  lab = string(format='(E10.3)', cc_contour_levels(j))
  labs = strtrim(lab, 2)
  lab1 = strmid( labs, 0, 4)
  lab2 = strmid( labs, strpos(labs,'E'), 4)
  ;print, lab, labs, lab1, lab2
  xyouts, 1, 20+sh*j, /device, color = 1, charsize = 1.0, lab1
  xyouts, 1, 3+sh*j, /device, color = 1, charsize = 1.0, lab2
endfor
END
```
