That should be:

```
>  
> openr,lun,/GET_LUN,image_file  
> image=ASSOC(lun,fltarr(500,600))  
    ^^^  
>  
> sub_array=fltarr(201,201,4)  
>  
> for i=11,14 do begin  
>     sub_array[0,0,i]=(image[i])[100:300,200:400]  
> endfor
```

---
