Ahem.

"XVOLUME, Vol, [, /BLOCK] [, GROUP=widget_id] [, /INTERPOLATE]
[, /MODAL] [, RENDERER={0 | 1}] [, /REPLACE] [, SCALE=value] [, /TEST]
[, XSIZE=pixels] [, YSIZE=pixels]

Arguments

Vol

A 3-element array of the form [x, y, z] that specifies a data volume. "

Well frankly if I have a 3-element data array I'm not sure it's worth the effort to fire up IDL to visualize it.
