hi folks,

wanted to let y'all know today (19 sep 2001) i found a major bug in one of the routines i wrote to calculate anomalies from CCM3 output. the routine is CALCANOM. in short, results are entirely wrong with the program as is. more information is at:

<http://www.atmos.ucla.edu/~jlin/lib.html#ccm3>

am really really sorry about this error. in the future i won't put anything on the web w/o vetting it at least 1/2 year first.

best,
-Johnny
