Mark Chan (markchan@shaw.ca) writes:

> I am a Direct Graphic user.

You and everybody else. :-)

> 1) Will RSI, sometime in the foreseeable future, discontinue support of DG?

They tried that once and it was a disaster.
I personally think Direct Graphics is here to
stay. Although I wouldn't expect too may enhancements
to a graphics system that was the cat's meow in the
late 1970's.

> 2) Could you recommend a couple of books to bridge the gap between DG and
> OG?

No. Although I hear all kinds of things on the rumor
mill. You never know who will be willing to give up a life
of comfort to write a book. :-)

Cheers,

David

P.S. Let's just say if things are not going so well
at home, why not write a book? At least your colleagues
will find you simulating.
