Sure. How about the following commands:
; create a few blank windows
window, 1, xsize=600, ysize=400, title="Plot 1"
window, 2, xsize=600, ysize=400, title="Plot 2"
window, 3, xsize=600, ysize=400, title="Plot 3"
window, 4, xsize=600, ysize=400, title="Plot 4"
; make subsequent commands display on window 1
WSet, 1
plot, x, y
oplot, x1, y1
; make subsequent commands display on window 2
WSet, 2
...
; back to window 1
WSet, 1
...
