Embarrassed!? Why would I be embarrassed?

Why in the world would I be reading about the  
CELL\_FILL keyword? I was *\*using\** the FILL keyword  
on a MAP PROJECTION. I didn't find *\*anything\** under  
those two topics in the documentation concerning my  
problem.

No, my dear Pavel, I'm not the one who should  
be embarrassed. :-)

Cheers,

David

P.S. Let's just say if I knew what I was looking for  
I wouldn't even NEED the index!
