I probably am misunderstanding you, but how about:

```
ridiculouslylong1 = ' ballksjdfijasldfkjalksfjdkajsd lkasjdf ;lkajsd lk  
;alkdsfj '  
r12= ' ballksjdfijasldfkjalksfjdkajsd lkasjdf ;lkajsd lk ;alkdsfj '  
r13 = 'ballksjdfijasldfkjalksfjdkajsd lkasjdf ;lkajsd lk ;alkdsfj '  
r14 = 'ballksjdfijasldfkjalksfjdkajsd lkasjdf ;lkajsd lk ;alkdsfj '  
r15 = ' ballksjdfijasldfkjalksfjdkajsd lkasjdf ;lkajsd lk ;alkdsfj
```

formatstring = ridiculouslylong1 +r12 +r13 etc..
