Subject: Writing Binary data? Posted by Spade on Tue, 06 Nov 2001 02:31:39 GMT

Hi I want to binary data to file, specifically to PCM wave format (.wav). I'm not sure how to do it correctly. If i have ascii or some numbers, how do I write the binary? I've been trying to write the ascii equivelant of my data to a text file, but If I try and convert the data to a formatted string, the 0's stop the conversion process, so it doesn't work. I can write the hex to a text file, and convert to binary in another app, but that is silly! What am I missing?
