Subject: converting int array to a string
Posted by Chad Bahrmann on Wed, 21 Nov 2001 00:00:40 GMT

Is there an easy way to convert the following:

x=[1,2,3,4,5,17,45,46,47,48,49,50,51,59]
where x is minutes in an hour for example

to a string like:

minutes='1-5,17,45-51,59'

Thanks in advance,

Chad Bahrmann
