How about something real simple like this to replace AND:

```
filelist = FINDFILE(outpath + string(yr, FORMAT = '(I4.4)')
```

```
  + '*' + '_average.int', COUNT=filecount)
```

```
if filecnt NE 1 then break;
```

```
filelist = [ filelist, FINDFILE(outpath + string(yr+1, FORMAT = '(I4.4)')
```

```
  + '*' + '_average.int', COUNT=filecount) ]
```

```
if filecnt NE 1 then break;
```

> endfor
