During Christmas vacation of 1974, my father flew us all to Disney World by route of Tampa, Florida. Ignorant of geography, it did not occur to me that Tampa was out of the way to Disney World until my father drove the rented van to the gates of MacDill Air Force Base. Military personnel met me there and escorted me into the base TOP SECRET high tech mind control

conditioning facility for "behavioral modification" programming. This was the first in what became a routine series of mind control testing and/or programming sessions on government installations that I would endure throughout my Project Monarch victimization.

Whether I was in a military, NASA, or government building, the procedure for maintaining me under total mind control remained consistent with Project Monarch requirements. This included prior physical and/or psychological trauma; sleep, food, and water deprivation; high voltage electric shock; and hypnotic and/or harmonic programming of specific memory compartments/personalities. The high tech equipment and methods I endured from that time on gave the U.S. government absolute control of my mind and life. I had been literally driven out of my conscious mind and existed only through my programmed subconscious. I lost my free will, ability to reason, and could not think to question anything that was happening to me. I could only do as I was told.

In the summer of 1975, my family drove all the way from Michigan to the Teton Mountains of Wyoming. I was ordered to ride in the back storage area of the family Chevy Suburban since I was forbidden to associate or communicate with my brothers and sister. So I dissociated into books, or into the metaphorical, hypnotic suggestions from my father and tranced deeper as I watched the prairie's seemingly endless sea of "amber waves of grain" streak past my window. Once when we stopped at a gas station, my father took me inside to show me a stuffed "jackalope" mounted on the wall. Due to my tranced, dissociative state and high suggestibility level, I believed it was indeed a cross between a jack rabbit and antelope. It was 100+ degrees in the Badlands when it cooled down at night. The intense heat of the day accentuated my ever increasing thirst. My father was physically preparing me through water deprivation for the intense tortures and programming I would endure in Wyoming.

Dick Cheney, then White House Chief of Staff to President Ford, later Secretary of Defense to President George Bush, documented member of the Council on Foreign relations (CFR), and Presidential hopeful for 1996, was originally Wyoming's only Congressman. Dick Cheney was the reason my family had traveled to Wyoming where I endured yet another form of brutality -- his version of "A Most Dangerous Game," or human hunting.

It is my understanding now that A Most Dangerous Game was devised to condition military personnel in survival and combat maneuvers. Yet it was used on me and other slaves known to me as a means of further conditioning the mind to the realization there was "no place to hide," as

well as traumatize the victim for ensuing programming. It was my experience over the years that A Most Dangerous Game had numerous variations on the primary theme of being stripped naked and turned loose in the wilderness while being hunted by men and dogs. In reality, all "wilderness" areas were enclosed in secure military fencing whereby it was only a matter of time until I was caught, repeatedly raped, and tortured.

Dick Cheney had an apparent addiction to the "thrill of the sport." He appeared obsessed with playing A Most Dangerous Game as a means of traumatizing mind control victims, as well as to satisfy his own perverse sexual kinks. My introduction to the game occurred upon arrival at the hunting lodge near Greybull, Wyoming, and it physically and psychologically devastated me. I was sufficiently traumatized for Cheney's programming, as I stood naked in his hunting lodge office after being hunted down and caught. Cheney was talking as he paced around me, "I could stuff you and mount you like a jackalope and call you a two legged dear. Or I could stuff you with this (he unzipped his pants to reveal his oversized penis) right down your throat, and then mount you. Which do you prefer?"

Blood and sweat became mixed with the dirt on my body and slid like mud down my legs and shoulder. I throbbed with exhaustion and pain as I stood unable to think to answer such a question. "Make up your mind," Cheney coaxed. Unable to speak, I remained silent. "You don't get a choice, anyway. I make up your mind for you. That's why you're here. For me to make you a mind, and make you mine/mind. You lost your mind a long time ago. Now I'm going to give you one. Just like the Wizard (of Oz) gave Scarecrow a brain, the Yellow Brick Road led you here to me. You've 'come such a long, long way' for your brain, and I will give you one."

The blood reached my shoes and caught my attention. Had I been further along in my programming, I perhaps would never have noticed such a thing or had the capability to think to wipe it away. But so far, I had only been to MacDill and Disney World for government/military programming. At last, when I could speak, I begged, "If you don't mind, can I please use your bathroom?"

Cheney's face turned red with rage. He was on me in an instant, slamming my back into the wall with one arm across my chest and his hand on my throat, choking me while applying pressure to the carotid artery in my neck with his thumb. His eyes bulged and he spit as he growled, "If you don't mind me, I will kill you. I could kill you -- Kill you -- with my bare hands. You're not the first and you won't be the last. I'll kill you any time I goddamn well please." He flung me on the cot-type bed that was behind me. There he finished taking his rage out on me sexually.

On the long trip back to Michigan, I lay in a heap behind the seats of the Suburban, nauseated and hurting from Cheney's brutality and high voltage tortures, plus the whole Wyoming experience. My father stopped by the waterfalls flowing through the Tetons to "wash my brain" of the memory of Cheney. I could barely walk through the woods to the falls for the process as instructed, despite having learned my lessons well from Cheney on following orders.

The next year when our "annual" trip to Disney World rolled around, my father drove, pulling his new Holiday Rambler Royale International trailer. My father dropped me off en route at the Kennedy Space Center in Titusville, Florida where I was subjected to my first NASA programming. From then on, I was "obsessed" with following the "Yellow Brick Road" to Nashville, Tennessee. Moving to Nashville was all I could talk about. If anyone asked me the question I could not think to ask myself "Why?", I would respond by reiterating it was something "I had to do."
