Hello all IDL users,

We have just installed IDL 5.5 on our computers: Dec alpha running True UNIX and Mac OS systems.

Unfortunately, the online IDL help remains at the 5.4 level. Our local RSI support just says we should refer to the 'what news' booklet (2 books for ~ 15 users) or to the PDF file (~400 pages).

This seems to me really incredible if we remember the cost of IDL licenses.

Is it the same thing under Windows, or has RSI definitively decided to despise its non-Windows customers?

Regards,
Christophe
