Hello,

I have a question related with loops.....can someone tell me why

if i do a loop that goes to a maximum of 0.6:

for r=0.0, 0.6, 0.1 do begin & print, r & endfor

I get:

0.000000

0.100000

[.....]

0.500000

0.600000

and if now i change the maximum value of the range to 0.7:

for r=0.0, 0.7, 0.1 do begin & print, r & endfor

I get:

0.000000

0.100000

[.....]

0.500000

0.600000

EXACTLY THE SAME!!!

I have IDL Version 5.4

Thanks :) !

M Carmen
