Dear Miquel,

```
openr,lun,file,/get_lun  
x=fstat(lun)  
help,x,/str  
free_lun,lun
```

online Help of fstat says:

ATIME, CTIME, MTIME The date of last access, date of creation, and date of last modification given in seconds since 1 January 1970 UTC. Use the SYSTIME function to convert these dates into a textual representation.

regards
Reimar
