Would anyone out there be interested in a 2-3 day meeting for people (primarily in the Southeast) using IDL (Interactive Data Language from RSI, not Interface Description Language) for medical imaging applications. The main purpose of the meeting would be to share ideas, experience, and software. It would be held in Knoxville, TN, sometime in the spring of next year.

Please send replies (positive or negative) to:

tribbey@scanner.hosp.utk.edu

If you are interested in such a meeting, please include the number of interested persons at your facility.

Thanks exponentially,

Will Tribbey
