Subject: changing editors?

Hi all-

I'm running IDL 5.4 on Windows 2k. I have been trying to figure out if there is a way to change from the default IDL editor to a different one, such as gvim. Also it appears there is no way to run IDL from the command line under windows, is there any way to do so?

Any help on getting IDL to work better with command line utils(in particular cygwin) would be helpful.

thanks

-tim
