No, you don't have to learn "everything" about objects.
It would be enough to know how to use the IDLgrMPEG object.

It really is no harder than learning how to use, say,
the INTERPOLATE function. You just start with the on-line
help. :-)

Here is an article that will get you started:

  http://www.dfanning.com/tips/how_mpeg.html

Cheers,

David
