My compliments, JD!

My eyes used to glaze over whenever you reverse-index gurus touted your stuff, but with this clear-cut example I think I've finally gotten it! (And obviously, David has already graduated from histogram college!)

Some of the spaghetti might benefit from being canned in a procedure, I'd say. Makes for meaningful programs & plenty of space to document the [sometimes arcane] logic behind the use of the histogram function! E.g. JDS_NSMALLEST(DATA,N).
