Subject: Is PDF the only help option in 5.6?
Posted by Eric Williams on Tue, 11 Feb 2003 14:48:27 GMT

I really dislike using Acrobat Reader to browse help in IDL now. Is
there an option to get the old hyperlinked help back(last version
before this I used was 5.3)? It was just a quicker, easier to use
interface I feel. Everyone of my users has complained about this also.

Thanks for any tips.
