
Subject: IDL: CALL_EXTERNAL under Solaris 2.3
Posted by [Fergus Gallagher](#) on Tue, 07 Feb 1995 15:34:17 GMT

Having upgraded my Sparcstation 20 to Solaris 2.3 and F77 3.0,
I find that my makefile for my shareable object no longer compiles.
Call_external.doc leaves an obvious "to be continued" gap under
Solaris 2.3.

Anybody know the appropriate libraries I should link?
