As usual, David Fanning has a nice tip on this. Hummmm, wait a minute. Maybe not. He does have this morsel:

http://www.dfanning.com/ographics\_tips/rt\_objects.html

But I thought there was a more thorough explanation. I suggest searching the archives via google groups for something like "compiling run time .sav"

> I think they must run fast.

I wish they did, but they don't.
