As usual, David Fanning has a nice tip on this. Hummmm, wait a minute.  
Maybe not. He does have this morsel:

[http://www.dfanning.com/ographics\\_tips/rt\\_objects.html](http://www.dfanning.com/ographics_tips/rt_objects.html)

But I thought there was a more thorough explanation. I suggest searching  
the archives via google groups for something like "compiling run time .sav"

- > I think they must run fast.

I wish they did, but they don't.

-Rick
