Good idea

a workaround is to use ytickv and yticks. Then they are major ticks.

```
pro test_contour
erase
loadct,15
x=findgen(100)
y=findgen(100)/99.*70+20
z=findgen(100,100)
CONTOUR,z,x,y,/ylog,ystyle=1,/fill,yticv=[20,30,40,50],ytic ks=3
end
```
