Subject: Embedding colour IDL syntax in Word
Posted by Manish on Wed, 13 Aug 2003 11:56:01 GMT

Hi all,

I'm running IDL 5.4 on windows 2000 - i need to put my IDL code in a
document in Word XP, does anyone know of an easy way to export code from a
*.pro file
into Word, whilst preserving the colour syntax?

Thanks in advance,

Manish
