Subject: Re: Old Riemann function
Posted by Chris[2] on Tue, 28 Oct 2003 15:48:52 GMT

Hi Luis,

All of IDL's obsolete routines can be found in the "obsolete.pdf" help file
in your $IDL_DIR/help directory.

Also, note that RIEMANN was not "renamed" as RADON. RADON is a completely
different function. RIEMANN is still available and will still work
correctly. Just the documentation has been moved to "obsolete".
