FWIW, I have been casually looking for a good repository of free 3d models on and off for a while and I haven't found any really good sites. There is 3dCafe, and 3dKingdom, and a bunch of sites that post a few models here and there. I usually google then sift thru the results.

You can expand your search to include .3ds models and then use something like openFX to convert them to .dxf. This will open up the world a wee bit more.
