Well, there you go! Not really all that hard once
you know the undocumented trick. I know what I'm
going to submit to the Chairman for this year's
IEPA Test Question. (By the way, the annual IPEA
bacchanal has been pushed back from it's normal
October date this year to give the inductees more
time to study iTools. Good luck!)

I really appreciate your help, Chris. Wish we
heard from you guys a little more often. :-)

Cheers,

David
