Hello everybudy!

Could anyone please tell me...how do we display a image in IDL?
Right now i am using the 'TV' function but it is not displaying the full image. It is actually displaying only a 512*512 portion of the image (irrespective of the actual size of the image provided it is more than 512*512). Can anyone tell me why does it happen so & also suggest a better alternative for the 'TV' function.

TIA

Gaurav Jain
