Subject: axis on a widget draw Posted by Valerio Pace on Mon, 09 Feb 2004 18:27:43 GMT View Forum Message <> Reply to Message

Hello,

I have created a widget base in which there is a widget draw. Now, I wanna display x-axis and y-axis on the left side and on the upper size of the widget draw, but out of it. The axis must be displayed on the widget base.

How can I do it?

Cheers, Valerio
