Just go to the root of the link and see the wonders it performs!

(i.e. drop the 2vxut)

No, no David, google `was still my friend!' I just did the following
with some of the info you gave,

- 1.) name => got the Swiss bit
- 2.) name Dutch info => Can't remember what I got, was not too useful!
- 3.) then just Dutch uni bit => from there found their homepage and was
able to find my way to the English version and then the phone book

Glad to help, but it was just my `friend' as always that deserves the
credit. Maybe a tiny bit for me for experienced web searching with
said friend!

I'm just sorry I did not get the info to you before the details were
posted raw! Oh well, at least two people have had a netiquette lesson
today and learnt something!

Slig1/2n, marcu
