Recently, we posted an alert about a problem in the implementation of the LOGICAL_AND and LOGICAL_OR functions in IDL 6.0. A patch to fix this behavior is now available. To obtain it, please visit the following Tech Tip on the RSI Web site:

<http://www.rsinc.com/services/techtip.asp?ttid=3693>

We have also taken this opportunity to address a colormap issue with the IDL Virtual Machine on UNIX and Mac. For more information, see:

<http://www.rsinc.com/services/techtip.asp?ttid=3702>

Please feel free to contact RSI if you have any questions.

Thank you,
Stephanie Staley
IDL Technical Product Manager
