Subject: Re: Colormap in idl -vm Posted by Yunxiang Zhang on Tue, 23 Mar 2004 23:25:31 GMT View Forum Message <> Reply to Message

## Thanks David!

It seems that 'idlde -vm' doesn't really care about my .idl\_startup.pro. And another strange thing is whenever I start the virtual machine, I have to click the button twice to get to the open sav file dialogue. Was it due to the latest patch? I can't remember. ^!^
