Yeah, that's the *real* bad news. The northern territories are completely dry. Not even legal to *bring* it in, according to my packet of material. It's really not the kind of place I expect to find too many IDL programmers. :-)

Appreciate the pictures, though. The Lonely Planet Guide I consulted had this to say about Deadhorse: "Uh, you don't want to go there." I'm beginning to see why. :-)

Cheers,

David
