I keep getting the following error in my code and I can't figure out why.
Any help would be appreciated.

```
% XMANAGER: Caught unexpected error from client application. Message follows...
```

```
% Internal error: Triangulation is invalid.
```

```
CONTOUR, X, Y, Z, IRREGULAR=1, ISOTROPIC=1, /CLOSED, /CELL_FILL, /OVERPLOT,  
LEVELS=[  
  20,40,60,80,100,120,140,160,180,200,220,240,260,280,300,320, 340,360,380,400,  
  420,440,460,480,500,520,540,560,580,600,620,640,660,680,700, 720,740,760,780,  
  800,820,840,860,880,900,920,940,960,980,1000]
```

X is my array of data of type double

Y is my array of longitudes of type double

Z is my array of latitudes of type double

each array is 32400 in size.

Thank you,

Jeff
