Hi,

i am working with Object Grpahics and i hace a problem:)

I have put on a model two objects. Firts, i must put an IDLgrPolyline betwen two points (a line) that i can modify to select one trajectory. Second i put an IDLgrImage.

My problem is that image is drawing over the polyline. I play with

DEPTH_TEST_DISABLE and DEPT_TEST_FUNCTION, but always the image is drawing over the polyline.

Any idea?

Thanks.
