---

shouldn't this work?

```
run read_data_pts
```

```
d = read_data_pts()
```

```
xplot3d,d.hi.x,d.hi.y,d.hi.z, psym=1
```

```
xplot3d,d.lo.x,d.lo.y,d.lo.z, psym=4 /OVERPLOT
```

thanks for your help.

cris
