When I am running on 64 bit mode on Solaris 5.8.

I get the following error:

```
ld.so.1: simv.solaris: fatal: relocation error: R_SPARC_WDISP30: file
/usr/vlib/vcs/sun4v/libpli_vcs_s5.so: symbol printf: value 0x617ebea0 does
not fit
```

Could anyone give me some hint on how to resolve the issue ?

Thanks in advance
