Subject: Overlaying annotations Posted by jcesq on Sun, 26 Sep 2004 01:40:00 GMT

Hi!

I'm using ENVI/IDL to produce NOAA images of Brazil. The images are wrote into JPEG format. I would like to know a way to overlay an annotation (e.g. the date, hour, satellite) on these JPEGs. Is it possible? Any comments are welcome!

Regards! Jeferson
