
Subject: Read old CPET scanner .img files

Has anyone had to read older CPET files? I understand it is based on the ECAT format, but differs in a at least a few respects.

The files have the .img extension and look like these:

p499s0_KEN_WB.img

p499s0_KEN_WB_nac.img

(Attenuated and non-attenuated files)

Any suggestions would be appreciated. Thanks.
