The Fisheries Acoustics Research Lab located at the University of
Washington in Seattle, WA is looking for an IDL programmer to support
research in fisheries and fisheries acoustics.

The successful candidate will have 1-2 years experience developing
applications in IDL, and will also have experience administering
Windows, Linux, and Solaris operating systems. Experience with C/C++,
HTML, PHP, and ION Script a plus.

The opening is for a full-time, permanent position.

An official announcement hasn't been made but will be made shortly.
The details regarding this position may change.
