I do believe that maybe you can give a quick answer.

```
IDL> a = [[1], [1]]
IDL> help, a
A          INT      = Array[1, 2]
```

```
IDL> a = [ [1,1] ]
IDL> help, a
A          INT      = Array[2]
```

How can I make it Array[2,1] ?

Thanks in advance,

N.
