Subject: Singular jacobian in broyden Posted by Jerome Colin on Wed, 23 Feb 2005 19:01:36 GMT View Forum Message <> Reply to Message

Hello,

I try to use the Broyden function to resolve a set of three equations. I've declared the three equations in a function, and provided initial guess. The code is compiled well, but I get the message:

'Singular jacobian in broydn'

As I'm not familiar with this method, I'd appreciate any help and/or comments about the source of this error.

Many thanks!

Jerome
