Subject: Re: Automatic Compilation Posted by Evelien Vanhollebeke on Tue, 08 Mar 2005 16:19:05 GMT View Forum Message <> Reply to Message

Hi,

I can confirm this and also add that you shouldn't use numbers in your filenames, otherwise, they will not be compiled automatically.

Cheers, Evelien

     It seems I finally got the point. This seems to be a case sensitive
  trick. Let's see, if I can explain (and maybe someone can confirm this -
  notice I'm working in Linux )
>
     If you have already add "your" working directory do idl path has I did

  % Attempt to call undefined procedure/function: 'TESTING ROUTINE'.
> % Execution halted at: $MAIN$
  and for this last case you will see that idl is attempt to call.
>
>
  Quite funny, ins't it? Can someone please confirm this? :)
```
