¿como puedo insertar esta linea (ver
<http://orpheus.nascom.nasa.gov/~zarro/idl/objects/objects.html>) dentro
de un widget?.

```
IDL> file='mdi_maglc_re_20040310_2102.fts'  
IDL> mobj=obj_new('mdi')           ;-- create an MDI  
object  
IDL> mobj->read,file               ;-- read MDI file  
IDL> mobj->plot                     ;-- plot MDI image
```

Gracias
